

Estimating Sheet

Product	Dimensions	Calculations	Results
Novabrik 4" 	Smooth Face/Split Face Face Height = 4" Weight = 5.3 lbs. Coverage = 4.5 units/ft ²	$\frac{\text{Total wall ft}^2 \text{ needed}}{\text{Coverage Factor}} \times$	= _____ x price _____ = _____ \$
SV-Starter Strip 	Length = 8' Weight = 4.2 lbs. Color = White	$\frac{\text{Length of wall in feet}}{8}$	= _____ x price _____ = _____ \$
Exterior 90° Corner 	Smooth Face Height = 8.0" Weight = 5.9 lbs.	$\frac{\text{Total linear feet to cover}}{1.5}$	= _____ x price _____ = _____ \$
Exterior 45° Corner 	Smooth Face Height = 8.0" Weight = 8.9 lbs.	$\frac{\text{Total linear feet to cover}}{1.5}$	= _____ x price _____ = _____ \$
Interior 90° Corner 	Smooth Face Height = 8.0" Weight = 8.9 lbs.	$\frac{\text{Total linear feet to cover}}{1.5}$	= _____ x price _____ = _____ \$
Interior 45° Corner 	Smooth Face Height = 8.0" Weight = 5.9 lbs.	$\frac{\text{Total linear feet to cover}}{1.5}$	= _____ x price _____ = _____ \$

NOTE
* always check product height availability

NOTE
* round up to the nearest 8' length
** use above all openings

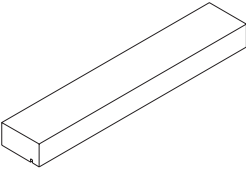

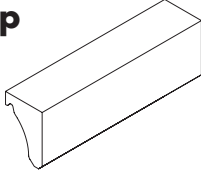

NOTE
* to be used with the 90° Corner Strip
** use construction adhesive between blocks

NOTE
* to be used with the 45° Corner Strip
** use construction adhesive between blocks

NOTE
* use construction adhesive between blocks

NOTE
* use construction adhesive between blocks

* all units are based on the imperial system
 ** all weights are approximated and could differ up to .5 lbs
 *** check color availability with your local dealer

Product	Dimensions	Calculations	Results
Window Sill 	Smooth Face Height = 2 1/4" Length = 15 3/4" Weight = 12.0 lbs.	$\frac{\text{Ln. ft. of window}}{\text{Ln. ft. of window}} \times .75$ <small>NOTE</small> * use construction adhesive between blocks	= _____ x price _____ = _____ \$
Wainscot Cap 	Smooth Face Height = 5 1/2" Length = 15 3/4" Weight = 19.0 lbs.	$\frac{\text{Ln. ft. of window}}{\text{Ln. ft. of window}} \times .75$ <small>NOTE</small> * check availability with your local dealer ** use construction adhesive between blocks	= _____ x price _____ = _____ \$
Corner Strip 	Length = 4' Weight = 2.2 lbs.	$\frac{\text{Total linear feet to cover}}{\text{Total linear feet to cover}} / 4$ <small>NOTE</small> * round up to the nearest 4' length ** a 45° corner strip is also available	= _____ x price _____ = _____ \$
Window Trim 	Length = 8' Weight = 2.0 lbs. Color = White	$\frac{\text{Ln. ft. of window}}{\text{Ln. ft. of window}} / 8$ <small>NOTE</small> * round up to the nearest 8' length ** check availability with your local dealer	= _____ x price _____ = _____ \$
Screw 	#10 x 2 3/4"	$\frac{\text{Total Novabrik needed}}{\text{Total Novabrik needed}} / 4^*$ <small>NOTE</small> * this will include enough screws for entire project ** use stainless steel screws in highly corrosive environments (<5 miles, ie: coastal areas) *** check dealer screw recommendations for ACQ, CBA, or CBX treated wood	= _____ x price _____ = _____ \$

House Wrap or Air Barrier

Square feet needed rounded to the nearest full roll _____ x price _____ = _____ \$

1"x 3"x 8" SPF #2 Dry (or equivalent)

One piece per wall stud and 2 per opening _____ x price _____ = _____ \$

Construction Adhesive

2 tubes/100 ft² and/or 2 tubes/8 ft. corner _____ x price _____ = _____ \$
